

# Bugs Report

## My Store Task

Contact Us Form:

Enhancement:

<b>Title/ID</b>	Required fields to be shown in the form
<b>Env</b>	Prod
<b>Steps to reproduce</b>	1) Go to <a href="http://automationpractice.multiformis.com/">http://automationpractice.multiformis.com/</a> 2) Go to contact us form
<b>Expected Result</b>	To be able to see/know what are the required fields before submitting the form
<b>Actual Result</b>	Required fields are not determined unless user tries to submit the form without filling them, also the error message doesn't include all required fields at once, as per the example attached, the user chose the subject only then pressed send, error appeared asked for email address only although the message is a required field as well
<b>Visual Proof</b>	<div><p>CUSTOMER SERVICE - CONTACT US</p><p>SEND A MESSAGE</p><p>Subject Heading -- Choose --</p><p>Email address</p><p>Order reference</p><p>Attach File No file selected Choose File</p><p>Send</p></div> <div><p>There is 1 error 1. Invalid email address.</p><p>SEND A MESSAGE</p><p>Subject Heading Customer service</p><p>For any question about a product, an order</p><p>Email address</p><p>Order reference</p><p>Attach File No file selected Choose File</p><p>Send</p></div>

Dress Search:

<b>Title/ID</b>	Verify search result
<b>Env</b>	Prod
<b>Steps to reproduce</b>	1) Go to <a href="http://automationpractice.multiformis.com/">http://automationpractice.multiformis.com/</a> 2) Search for dress
<b>Expected Result</b>	Results should include dresses only
<b>Actual Result</b>	Results include other items (blouse and T-shirt)
<b>Visual Proof</b>	<p>Visual proof showing search results for 'DRESS'. The results include dresses and blouses, indicating a search filter issue.</p>
<b>Severity</b>	Medium
<b>Priority</b>	High
